## Summary

Motivated Computer Science (IoT) undergraduate with strong foundations in Python, Object-Oriented Programming, Web Development, and Database Management Systems. Hands-on experience in building real-world software projects using frontend and backend technologies. Strong problem-solving mindset with passion for learning emerging technologies and contributing effectively in collaborative development environments. Seeking an internship opportunity to apply technical skills and grow in a dynamic IT organization.

## Education

**Malla Reddy Engineering College**

**2023 – Present**

*B.Tech in Computer Science (IoT) — CGPA: 8.76/10*

*India*

**Andhra Pradesh State Board**

**2023**

*Class XII — 92.5%*

*India*

**Andhra Pradesh State Board**

**2021**

*Class X — 100%*

*India*

## Projects

**Music Recommendation System using Facial Expressions**

*Python, Computer Vision, Machine Learning*

- Developed a real-time facial emotion recognition system using computer vision techniques.
- Classified user emotions using machine learning models for accurate detection.
- Recommended music dynamically based on detected emotions for personalized experience.

**AI-based Personalized Learning Platform**

*Python, Machine Learning, Web*

- Developed a machine learning-based platform to deliver personalized study recommendations.
- Built models to analyze user performance and generate adaptive learning paths.
- Integrated quizzes and progress tracking to enhance engagement and learning outcomes.

**Flood Detection & Management System**

*ESP32, MQTT, IoT, Cloud*

- Designed and implemented a real-time flood monitoring system using ESP32 and IoT technologies.
- Collected and transmitted sensor data via MQTT and visualized insights on cloud dashboards.
- Implemented automated alert mechanisms for early warning and disaster prevention.

## Technical Skills

**Languages:** Python, Java, C

**Core Concepts:** Object-Oriented Programming (OOP), Data Structures, Algorithms, Problem Solving

**Web:** HTML, CSS, JavaScript, Node.js

**Databases:** MySQL

**Tools:** Git, GitHub, VS Code, Postman, ESP32

**Tech:** IoT, Machine Learning, SDLC

## Certifications

Advanced Python Workshop — AI/ML Workshop — Web Development Bootcamp — Microsoft Certified: Azure AI Fundamentals — Python for Data Science — Introduction to internet of Things — Git and Github

## Achievements

- 3rd Place — Web-a-thon 2025 (IoT Essence Community)
- 4th Place — 2F2H Hackathon 2025 (GDSC SIT Pune)
- Participant — 36-hour Agentic AI Hackathon (Guinness World Record Event)
- Participated in national-level and inter-college hackathons and technical events
